Transforming The Organization Series

Values-based leadership begins with identifying core values.

Core values are the basic principles which we have chosen to guide our actions. Core values define beliefs, standards, and acceptable behaviors. Once determined and communicated throughout the organization, the values guide and govern the decisions and actions of the individuals and the organization. The core values shape the organizational culture and the behavior and actions of all who are associated with that organization.

Core values provide the framework for decisions, priorities, and actions. Some examples of organizational core values are:

- Our integrity has no room for error.
- We will conduct our business honestly.

The Top 10 Qualities Of An Excellent Manager

An excellent manager taps into talents and resources in order to support and bring out the best in others. An outstanding manager evokes possibility in others.

1. Creativity

Creativity is what separates competence from excellence. Creativity is the spark that propels projects forward and that captures peoples' attention. Creativity is the ingredient that pulls the different pieces together into a cohesive whole, adding zest and appeal in the process.

2. Structure

The context and structure we work within always have a set of parameters, limitations and guidelines. A stellar manager knows how to work within the structure and not let the structure impinge upon the process or the project. Know the structure intimately, so as to guide others to effectively work within the given parameters. Do this to expand beyond the boundaries.

3. Intuition

Intuition is the capacity of knowing without the use of rational processes; it's the cornerstone of emotional intelligence. People with keen insight are often able to sense what others are feeling and thinking; consequently, they're able to respond perfectly to another through their 'deeper understanding'. The stronger one's intuition, the stronger manager one will be.

Walt Disney World. Where magic lives.

The four values of Disney: Safety, Courtesy, The Show, and Efficiency are known and understood by all employees. Furthermore, they are rank ordered so that they can clearly guide the actions and decisions of everyone throughout the Disney organization.

The Quality Principle of Mars, Inc., “The consumer is our boss, quality is our work, and value for the money is our

goal,” has the same benefit for everyone who is associated with that company.

4. Knowledge

A thorough knowledge base is essential. The knowledge base must be so ingrained and integrated into their being that they become ‘transparent’, focusing on the employee and what she/he needs to learn, versus focusing on the knowledge base. The excellent manager lives from a knowledge base, without having to draw attention to it.

5. Commitment

A manager is committed to the success of the project and of all team members. She/he holds the vision for the collective team and moves the team closer to the end result. It's the manager's commitment that pulls the team forward during trying times.

6. Being Human

Employees value leaders who are human and who don't hide behind their authority. The best leaders are those who aren't afraid to be themselves. Managers who respect and connect with others on a human level inspire great loyalty.

7. Versatility

Flexibility and versatility are valuable qualities in a manager. Beneath the flexibility and versatility is an ability to be both non-reactive and not attached to how things have to be. Versatility implies an openness – this openness allows the leader to quickly ‘change on a dime’ when necessary. Flexibility and versatility are the pathways to speedy responsiveness.

8. Lightness

A stellar manager doesn't just produce outstanding results; she/he has fun in the process! Lightness doesn't impede results but rather, helps to move the team forward. Lightness complements the seriousness of the task at hand as well as the resolve of the team, therefore contributing to strong team results and retention.

9. Discipline/Focus

Discipline is the ability to choose and live from what one pays attention to. Discipline as self-mastery can be exhilarating! Role model the ability to live from your intention consistently and you'll role model an important leadership quality.

10. Big Picture, Small Actions

Excellent managers see the big picture concurrent with managing the details. Small actions lead to the big picture; the excellent manager is skillful at doing both: think big while also paying attention to the details.
